

# PLEASANTON FACILITY

## Warehouse and Liquid Mud Plant

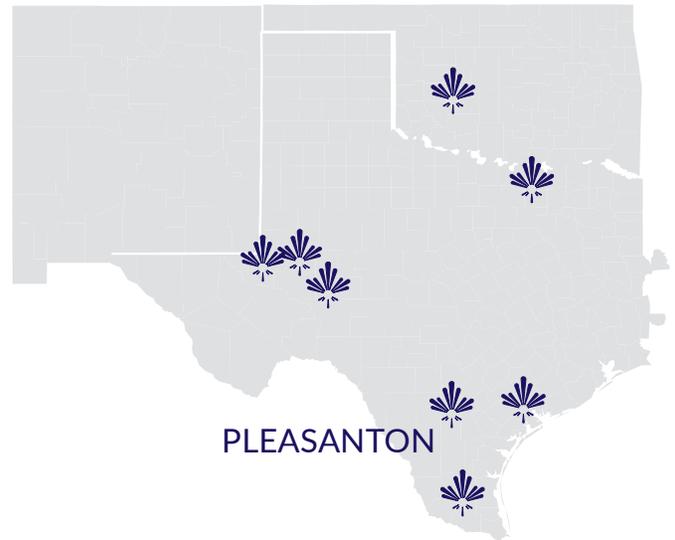

The Pleasanton facility in Atascosa County sits on 20 acres featuring a 8,000 square foot warehouse, mixing facility and bulk storage. Pleasanton operates on 24-hour regional dispatch with a mud engineer on duty at all times to perform required mud checks in the on-site mud testing lab.

### FACILITY OVERVIEW

The Pleasanton facility services the Gulf Coast with a full mixing facility and chemical warehouse. The liquid mud plant supports oil-base drilling fluids.

Chemical inventory includes key drilling fluid additives including bulk barite and lost circulation material. Chemical storage is available in the 8,000 square foot warehouse or outdoors in dedicated areas on the 20 acre site.

AES Drilling Fluids is constantly upgrading facilities to meet the needs of its customers. Confirm the latest capabilities and locations with an AES account manager.

### STORAGE

- 8,000 square foot warehouse
- 16,316 bbl liquid mud
- 27,000 sacks bulk barite
- 1,300 bbl base oil

### MIXING

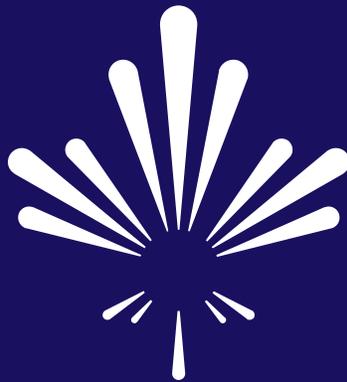

- 3 x 500 bbl mixing tank
- 1 x 250 bbl mixing tanks

### EQUIPMENT

- Mud lab (quality control)
